Notice,

To Wheelwrights, Blacksmiths, Tanners, Harness-Makers, Saddlers, Hatters, &c.

BELIEVING as I do, that PROVIDENCE, at Fairfax Court-House, would be a suitable situation for mechanics of the above description, I offer to such, lots in that village for sale, on ground rent for ever—will build and furnish suitable houses and rent to them, or furnish brick to them to build with; and invite any who feel disposed to settle there, for the purpose of carrying on their respective trades to advantage, to come and view the situation. It is a very public place, the centre of the county, where the superior and county courts are held. The Little River Turnpike Road passes through this little town from Alexandria westward, and where all the public meetings for the county, &c. are held; and where trades of the aforesaid description being carried on, would meet with great encouragement, and be a public convenience to the country around. No situation can be more healthy—good water, and fire wood cheap. Mechanics of the above description must generally depend on the country people, farmers, &c. to be their customers. Here they would be in a convenient situation for all the purposes. I invite a call, and view for themselves. I would also furnish lots adjacent, from one to five acres each, for cultivation, pasture, &c. on moderate terms; all of which can be shown, and terms made known, on application to RICH'D. RATCLIFFE.

TUESDAY, APRIL 27, 1819.

From the New-York Com. Adv. April 22.

LATEST FROM ENGLAND.

The ship Falcon, captain Lewis, arrived at Boston on Monday evening in 35 days from Liverpool and 29 from Waterford, bringing Liverpool papers to the 15th.

In the river the Falcon passed the Amity, going in. A letter from Captain Maxwell, dated Cape Clear, was received by the consignees at Liverpool on the 13th of March. The Amity arrived off Cape Clear on the 28th of February, and was detained nearly three weeks by strong north east winds.

The following vessels are advertised in the Liverpool papers; Euphrates, Stoddard for New-York 20th March; Martha, Sketchley ditto 14th; Manhattan, ditto 20th; Homer, Baltimore, about the 20th; Transit, do; Ceres, Callender, Charleston 18th; Friends, ditto 17th; Richmond, Ganges, and British brig Mary, for Philadelphia.

Price of American Stocks, at London on the 10th of March—U. S. 6 per cents 98½ a 100, bank shares, 2*l.* nominal.

We are indebted to a commercial house for the following extracts of letters, from Messrs. Rathbone, Hodgson & Co. dated Liverpool 10th and 13th of March.

Extract of a letter dated March 13.

There is no alteration in the prices of cotton since ours of the 10th, but the market is more steady, especially for uplands and Brazil. The holders are less anxious to sell at our quotations. About 1700 bags have been sold since the 5th inst. but owing to the unfavorable winds, we have had no arrivals. Sales of turpentine have been made at 12s 3d a 12s 6d; one lot at 13s 6d per cwt. Some Carolina tar at 14s 6d, and Virginia at 17s per bbl. Our corn exchange is rather dull. Sweet and fresh flour, 40s a 42s. Some very fine Indian corn has sold at 4s a 4½s per bushel.

The following summary is copied from the Palladium and Daily Advertiser.

The Mouiteur of the 6th of March, contains the decree of the king adding fifty-nine new members to the French chamber of peers. It is said in the Courier that many of these persons were the most distinguished partizans of the hundred days—and intimates that they were called round the royal person as a means of averting some imminent danger.

The end of June is spoken of as the period for the sailing of the Spanish armament for South America.

The Persian ambassador arrived in Paris, March 6.

It is said Ferdinand VII is about to marry the daughter of the king of Sardinia.

At a dinner of the society of foreigners in distress, at London, the duke of Wellington presided. The American and other consuls were present.

Prince Leopold was at Coburg, Feb. 28, with the grand dutchess Constantine. The princess of Wales was at Pesaro in Italy.

The Paris dates are to March 12—sixty new peers have been appointed—principally persons distinguished in the revolution. The duke of Bassano has been allowed to return to Paris.

The chamber of deputies had not been dissolved. The new peers are to give a majority to ministers.

An express has been sent from England to Calcutta, over land, with orders to prevent any further shipments of cotton. The despatches are engaged to be delivered in three months from leaving.

The English merchants are likely to be indemnified by Russia for 140 vessels and cargoes, under neutral flags, detained by Russia in 1810, principally loaded with colonial produce.

Extract of a letter dated March 10th.

The import of cotton from the 10th of Feb. to this date is 27,462 bags, consisting of 11,979 from the U. S. 10,000 from the East Indies; 4580 from the Brazils, and 903 from other parts. The sales during the same period are, 26,580 bags; 8600 American; 2750 East Indian; 12,500 Brazil, and 1660 of West Indian, and other descriptions.

A further reduction has taken place in the value of Sea Island of 2d a 2½d; Upland, 1d a 1½d; New-Orleans, 1d a 1½; Brazil, 1½d a 2d Surat, 1d a 2d; Bengal, 1d a 1½d.

QUOTATIONS.

Cotton.—Sea Island, 2s 4d. a 3s 4d; do. stained, 18d; Upland 13½d a 15½d; New-Orleans, 14½d a 18½d.

LATEST FROM ENGLAND.

The ship Falcon, Lewis, arrived at 10 o'clock last evening, in 35 days from Liverpool and 29 from Waterford, with a cargo of dry goods, crates, &c. to 80 consignees.

We have received our files of English papers by the Falcon, and have made such extracts as our time and limits would permit.

The London Courier speaks in warm terms of reprehension of the recent creation of French peers, of the Napoleon, or revolutionary character.

SIR PHILIP FRANCIS.

For the information of those readers who have perused the various publications which have attempted to establish the identity of this well known character with the secret and mysterious Junius, we have to state that the will of Sir Philip, dated the 28th of April, 1818, contains no allusion whatever to those celebrated letters.

[*London Courier, 8th March.*

London, March 12.

The claims of the English merchants on the Court of Russia for the value of 140 vessels and cargoes under neutral flags, detained by the government at Petersburg in the year 1810, are likely at length to be adjusted, it will be recollected that a deputation, at the head of which was Mr. Alderman Rowcrost, was sent from London to the Russian capital, to seek compensation from the Emperor for losses sustained by British subjects. As the Emperor Alexander was at Aix-la-Chapelle at the time of the arrival of the deputation, the memorial was forwarded to our minister, and from him to the hands of the Emperor. An answer to it has now been received, and we are informed that it is of a satisfactory nature. The amount is very large, as the whole 140 vessels had valuable cargoes on board, chiefly colonial produce.

London, March 15.

Letters have been received to the 23d ult. from Gibraltar, by which it appears that the plague on the coast of Africa, instead of diminishing with the cold weather, was increasing to an alarming extent.—The only information with regard to the ravages committed by it, was brought to the British fortress by the vessel appointed by the Governor to sail at stated periods, as no private trading ships were allowed to have any communication with the Barbary coast. According to the latest advices, one or two hundred persons died daily of the disease.

We have several times had occasion to advert to the strenuous exertion Spain is, at the present moment, making again to recover the provinces of La Plata.—For this precise purpose the minister Yrujo was called into office—and certainly he has given that tone to the efforts of Spain against the Transatlantic provinces, which none of his predecessors have been able to do—that is, he has put into motion those schemes which before were only to be found in the columns of the Madrid Gazette—or in other words, he has obtained a certain number of transports. The British, French, Spanish, Italian, Dutch, Prussian, Swedish and Danish vessels, which are hired, are ordered to rendezvous at Cadiz in the beginning of April, to embark 20,000 men, and to be escorted by a large naval force. Such is the project of the Spanish government, which is an attempt greater than even this country ever witnessed. When the Helder fleet sailed from England, they had about 78,000 tons of shipping for 15,000 men, who were three weeks before they landed, at which time all their water was out. For Spain to convey 20,000 men across the Atlantic, she will require 100,000 tons of shipping, or 300 vessels.

We have this morning received German papers to the 6th inst. Great and speedy changes are expected at Hanover in the present constitution of that State. It is said the revenue has proved deficient.

The Emperor and Empress of Austria have arrived at Venice, on their way to Rome. The whole of the diplomatic body at Vienna intend following the court.

An article from Brussels, which states that Bonaparte's cook had lately arrived there from St. Helena, says, that "Bonaparte was very gloomy, and his chief occupation appeared to be the arrangement of his memoirs."

Advices from Batavia of the 25th October mention, that the Netherland troops arrived on the 19th August, before Malaca, to receive possession of that colony from the English resident, Mr. Kenneth Murchison. The cession had not actually taken place, but all the preliminary arrangements were proceeding.

London, Monday night, March 15.

Commercial distress continues in the city. We are extremely sorry to state that several houses in Irish trade have been under the necessity of suspending their payments to day. It is said that they amount to eight or nine—and we are afraid from what we hear, that this is not an exaggeration.

The accounts from Liverpool and Manchester received in town this morning, it gives us pleasure to state, however, are more satisfactory, at least if an increase of business at both those places may be considered as an improvement. At Liverpool during the whole of last week, there was a great deal of speculation in cotton, and no less than 12,000 flags of this article had been sold.

The advices from Amsterdam of the 11th inst. brought by the Dutch mail, assert, that trade, both in that city and other places, was remarkably stagnant—and the exchange on London continued to fall.

"Paris, March 8.

On the 6th instant the chamber of peers was on the point of becoming the theatre of serious commotion. M. de Lamoignon had the temerity to ascend the tribune, for the purpose of protesting against the recent Royal Ordinance. Fortunately the prudence of the chancellor put an end to the embarrassing question, by adjourning the sitting before the conclusion of the speech of Mr. de Lamoignon. It is affirmed, that several peers had even grasped their swords; but I doubt, however, that things went so far."

Count Lamoignon made, on Saturday last, amost extraordinary proposition in the house of peers, which was rejected by both parties, with sentiments of surprize and indignation as an unprecedented encroachment on the royal authority. This peer (who enjoys an unimpeached reputation for probity and loyalty, and who in Bonaparte's time withdrew into the country, and never filled any public functions) proposed in the upper house, to address the king to declare the regret with which their Chamber viewed the nomination of so many strangers, and to request his majesty not to mistake the sentiments and devouements of the ancient peers. Universal cries of disapprobation, interrupted the orator—the president declared he could listen no longer to such unconstitutional language, and many of the peers waited on the Minister of the interior, in quitting the house to request him not to suffer the journals to publish any account of it.

The Funds have rissen a little to day; they left off at 65f. 62c.

Paris, March 11.

Yesterday there was a grand council, which commenced at one, and continued untill half past 5 o'clock in the afternoon.

The definitive organization of the National Guards is referred to the King's ministers, and will soon be discussed in council.

Yesterday the memoirs of count Las Casas were seized at the bookseller's L'Huillier.

It is not ascertained when the projects of law concerning the press, the journals, and the trial by jury, will be presented to the Chamber—but it appears certain, notwithstanding what has been said in one of the papers, that they will not be submitted to the chamber during the present week.

It is asserted, that in compliance with the orders of the King, the Minister of the interior has given directions to different statuaries, to execute marble statues of Pascal, Montaigne, Bossuet, Corneille, Racine, La Fontaine, and Montesquieu, which are to be placed in the cities which gave birth to these great men.

Winter, crowned with snow, has been joyfully welcomed in the mining countries as an old friend. The roads are now covered with hundreds of vehicles conveying ore and coals.

Frankfort, Feb. 29.

They talk of several bloody scenes which it is affirmed, has taken place on the frontiers of Prussian Saxony. Among others, it is stated that a Custom-house officer, in a town in Thuringen, was murdered in his bed the first night after he arrived there.

Mr. Regnault de St. Jean d'Angley has received permission to return to his native country. Yesterday he left this city to proceed to Paris. We learn from Paris that Mr. Maret, Duke of Bassano, has also been authorised to return to Paris.

Constantinople, Feb. 8.

The emperor of Russia has written a very friendly authograph letter to the Sultan, recommending to the Porte the amicable arrangement of the still disputed points arising from the treaty of Bucharest. It is hoped, with the more reason, that this unusual step will have a favourable influence on the negociations of Baron Strogonoff, as the two emperors both desire the maintenance of peace, and a part of the late difference is really adjusted.

The celebrated traveller, known by the name of Ali Bey, who was on a pilgrimage to Mecca, with the caravan, died not far from Damascus. The Pacha, by virtue of his title to inherit the effects of all pilgrims who die on the road, has taken possession of all his property, including the valuable instruments and manuscripts.

LATEST FROM LIVERPOOL.

The fast sailing and regular trading ship Martha, capt. Sketchley, arrived here yesterday from Liverpool, which port she left on the 16th ult. By this arrival the editors of the Mercantile Advertiser have received Liverpool papers of the 15th, Lloyd's Lists to the 12th, and London papers to the evening of the 13th March.

Markets, Liverpool, March 13.

The operations in cotton during the week have been very extensive, the trade as well as the Spinners having been induced to come into the market by the low prices, in consequence of which the holders assumed a greater degree of confidence; Boweds and Orleans realized towards the middle of the week, an advance of ¼d per lb. The transactions of the week comprize 850 bales Orleans at 14 to 18d; 5000 Boweds at 13d, to 15½ a 16d; 380 Sea-Islands, at 2s 4—3s 3 up to 3s 6 for St. Simons; 240 Bengals at 6d to 9d. Tobacco has been in limited request during the week, and but few sales at a reduction of ¼d to ½d per lb on middling and ordinary Virginia.—Rice is extremely languid. On Thursday 900 bags of Java, were put up, but withdrawn; 44 casks Carolina, in bond were also attempted, and and bought in at 23s 3. Ashes—Boston Pots are now offered at 49s; N York at 47 a 47s 6d; Pearls are also 21 lower than last week, and at 53 to 58s the transactions are very limited. About 2100 bls. turpentine have been sold during the week at 12s 3 to 13s 6d. Yesterday 400 bls. Am. tar, was offered at Auction, part of which brought 15s 3—remainder withdrawn.

London Markets, March 12.

Little or nothing, doing in cotton. Prices nominal, but the holders shew no disposition to sell at present prices. Tobacco—the demand for Virginia and Kentucky, for exportation, has rather fallen off. The holders are firm at the present prices, expecting a renewal of the demand.

London, March 13.

The Mercantile world suffered a severe shock yesterday morning, in the failure of the very eminent house of *J. Barnanden & Co.* The outstanding debts and acceptances fall little short, it is said, of £200,000. This calamity has been principally brought on by the declining state of the markets, the house holding large quantities of clover seed, cotton, and tallow, the whole of which articles have undergone a very great depreciation. Among their acceptances were bills to a large amount drawn in behalf of the Prussian Government; but these latter have all been taken up by *Mr. Rothschild.*

The captain of the Virgin, arrived here yesterday, from London, states, that in lat 43, 11, long. from 47, to 48, he distinctly saw an Island from the deck of his vessel, which is not laid down in any chart. He believes that he is the first person who has noticed this Island.

The American Frigate Congress, Capt. Henley, has been for some days past in the port of Annapolis, where she is to receive on board Mr. John Graham and suite, to convey them to Rio de Janeiro in Brazil, where Mr. Graham is to succeed our late minister Mr. Sumpter, at the court of his most faithful majesty the king of Portugal, Brazil, and the Algarves.

The British frigate Forthe, is also at Annapolis, for the purpose of receiving on board the British Minister, Mr. Bagot, and family, about to depart from the United States for England.

Accident has thus brought to the view of each other two Frigates as nearly the same in tonage, size, and every equipment, as perhaps could have been selected from the fleet of the two nations; and although no friend to the welfare of both countries could wish that there might be any trial of force between them, there seems ashore a desire among the nautical gentlemen, that they may depart together, and in a voyage down the Bay, prove which may be the fastest sailer. Extract of a letter, dated St. Thomas, March 30, 1819.

"By a vessel just arrived from Curacoa, news had been received by a vessel arrived there from Carthagena, that the Governor of Panama had written to the Governor of Carthagena, for all the forces he could muster for his succour, as he dreaded an instant attack from the Independent army, which after having taken Lima, was then advancing rapidly to the northward, no doubt to attack his post. It is also stated, that of the fleet which some time ago had sailed from Spain for Peru, the crew of one vessel had mutinied, and carried her into Valparaiso; giving information that the rest of the squadron were in a similar state. On receiving these accounts the government of Valparaiso immediately despatched the same vessel, together with the rest of the squadron then in port, to intercept them, which they accordingly effected; and after exchanging a few shot, the whole Spanish fleet joined them. They immediately proceeded to Callao, under the Spanish flag, forwarded the dispatches taken on board the squadron, to the Vice-roy and debarked the whole of their forces, which were received with every demonstration of joy.

They immediately set out for Lima, and took peaceable possession of that city, the government supposing them to be friends."

A fine pair of pheasants, of the American breed, have been received from Jucatan, at New-York. The male is worthy of the attention of the curious; having a noble crest on his head, and being destitute of spurs. His character agrees with that of the *Phasianus Cristatus*, or Mexican pheasant of naturalists.

From the Poughkeepsie Journal, April 14.

The following account of an uncommon day's work, performed by Mr. Jesse Smith, a resident of a neighbouring town, we have from a gentleman of respectability who was a witness of the fact, with a request that we would give it an insertion. The public may therefore rely upon the correctness of the statement:

Mr. Jesse Smith, a very respectable farmer in the neighbourhood of this place, came 4 miles from home on foot in the morning, breakfasted with judge Russell at his usual hour, mowed for him (in a workmanlike manner) 4 acres and a quarter of pretty stout grass, a part of which was beaten down and lodged. After which he went a mile into the woods, felled and cut 4 sticks of timber, 20 feet long, for the sleepers of a house; returned to the judge's scored and hewed the same timber fit for the builder's use—and walked from thence home all within the same day and in good season, about sun-set.

Mr. Smith has, more than once, cradled ten acres of heavy rye in a day, between sun-rise and sun-set.

He has also tended alone, the burning of a lime kiln, five nights and six days without sleeping a moment, and without any material injury to his health.

Died, at Westport, (Mass.) on the 13th instant, Peleg Tripp, a young man of about 20 years of age.—Having, with a number of his associates spent most of the preceding day in idleness and drinking, towards evening one of the company offered to pay for it if he would drink off a tumbler of strong spirits, containing half a pint or more; he immediately swallowed the contents; and was soon wholly senseless; medical aid was exerted in vain; and he expired early the next morning—a victim to *Intemperance!*—and, we hope, an awful warning to others. Curvature of the Spine.

DR. HAMILTON,

No. 47, North Gay street, Baltimore,

HAVING turned much of his attention during a long practice to the *diseases of the Spine*, begs leave to tender his services for the cure or relief of that afflicting malady. The approach of this disease is easily detected by an attentive observer. It makes its appearance generally in children between the second and sixth year; a protuberance of one or more of the small bones composing the spine becomes evident, loss of appetite, irregularity of the bowels, and emaciation soon follow, together with much disinclination to walk—and unless immediate aid is obtained, death or incurable decrepitude through life are the certain consequences.

Doctor Hamilton has the satisfaction of knowing that his treatment of this disease, and application of the necessary apparatus, which is simplified at the same time, that it is materially improved, have received the unqualified approbation of many of the most eminent of his medical brethren in Baltimore. Spring corsets, upon a new principle, can be applied for the use of young ladies evincing a tendency to this disease, which, while they afford the most effectual support for either side, may be worn without observation. Satisfactory references might be given to parents whose children have profited by this improved mode of treatment, did not delicacy forbid the publication: they may be easily obtained if desired, by a private interview.

Shad and Herrings

CAN be had, in any reasonable quantities, and at moderate prices, at the

White-House Fishery

of the Belvoir estate, on the river Potomac; and persons from the country, as well as water customers, are invited to that shore, where they may expect the best treatment, and every facility, in getting such supplies as they need, which that well known fishery, and the utmost attention of the subscriber, can afford. Having been long experienced in that business on the Delaware river, and having taken the fishery for several seasons, he has caused a complete outfit to be made, not only for taking *Shad*, as heretofore, but *Herrings*, of which it is well known that almost any number may be caught at that shore, when the gluts are in the river. A very complete and commodious fish-house, on the spot, may be made use of by persons disposed to put up fish extensively, and who bring barrels and salt for the purpose. A number of barrels, and a quantity of salt, may probably also be had at the fish-house.——As the

Sandy-Point Herring Fishery,

at the mouth of Pohick Creek, on the same estate, is carried on this season by Mr. John Henderson, there will be the greater certainty that customers will not be disappointed in herrings, the two fisheries being near together: but country customers are cautioned not to come too early for herrings; as, of late years, they have several times done, and by returning home have missed of getting their supply, which afterwards was plentiful.

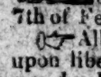
Gunston for Sale.

THIS elegant estate is situated on the Potomac, 16 miles below Alexandria—it is bounded on three sides by the Potomac and Pohick creek, and contains nearly 3,000 acres of land, level and fertile, to which are attached six shad and herring fisheries, two of which command the river channel. This land will be laid off in four tracts, so as to have one or more fisheries to each; these tracts will be again divided if requisite. This estate is level and beautifully situated, very fertile, and remarkably healthy. Plaister acts with an effect equal to that of any part of Virginia or Pennsylvania.—I have used 500 bushels in twelve months, and such is its beneficial operation, that were I to keep this land I should considerably increase the quantity. A manufacturing mill is distant about two miles, on a stream navigable for vessels carrying 1200 bushels of wheat, where the Baltimore and Dist. of Columbia prices are given for grain: being bounded on 3 sides by water, a small extent only of fence is necessary to inclose the whole: it would be admirably adapted to grazing. The improvements are a large and very



substantial brick mansion, 40 by 70 feet, with every necessary outhouse, three commodious barns, houses for Negroes, and fish houses at each of the fisheries. 120,000 bricks and 1000 bushels of lime are just burnt on the premises. There is a considerable extent of live fence, both useful and ornamental, two orchards of well selected apples and peach, besides an abundance of other choice fruit. More than 150 acres are in clover, 200 in corn, and land is in preparation for sowing 250 bushels of small grain. Any quantity of hay can be cut from the low grounds, some of which (and all might,) have been reclaimed at a trifling expense. The river and creeks, abound with wild fowl, particularly canvass backs, the woods with deer and a variety of other game. Mules, cattle, highly improved sheep, farming utensels and household furniture can be had. The terms of sale will be accommodating. Property in any of the cities, negroes, bank stock, western lands, or lands near the Ridge, will be taken in payment.—Letters must be addressed to me at Pohick Church, Fairfax county, Virginia.

September 4 GEORGE MASON.

Valuable Property for Sale.

THE subscriber is desirious of selling a handsomely situated farm, on Hunting creek, in Fairfax county Virginia, adjoining the Mount Vernon estate and the lands of general Thomson Mason, four miles from Alexandria, containing about 240 acres, 80 of which are in wood—40 to 50 in thriving meadow of clover and timothy—a part of the residue recently seeded with wheat and rye, and clover, last spring—the whole enclosed with a new post and rail fence.—The improvements are, a comfortable and

convenient frame dwelling house and kitchen, smoke house, poultry house, granary and stables.—There is on this place a rich and productive garden, and a large body of marsh meadow, from which may be saved annually 100 tons of hay, nearly as nutricious as the best timothy or clover.—With the farm would be sold a number of very valuable horses, cows and sheep; waggon, carts, and a variety of farming utensils and household and kitchen furniture; corn, oats and rye, and 40 tons hay. Also, adjoining the one above described, a farm containing 160 acres, recently enclosed, on which is a

brick house, which a trifling expense would render comfortable. The soil is excellent, and a considerable part might be easily converted into meadow.—it would be sold with the other or separately. Also, a number of valuable servants, male and female. To prevent unnecessary application, he would observe, that he will only be sold to persons residing in the District or its vicinity, and not to be carried from it. The subscriber will also sell the greater part of his household furniture, which is new and handsome. For terms of all or any part of the above property, apply to NOBLET HERBERT, esq. or
